# IMPORTANT 72-HOUR NOTICE FOR SLURRY SEALING WORK

## PLEASE READ CAREFULLY

### Annual Street Maintenance Project 21-BB: Collector & Residential Street Resurfacing Program

**WHO:** Graham Contractors (a subcontractor hired by O'Grady Paving, Inc.)

**WHAT:** Your street is scheduled to receive a slurry seal treatment.

If your street had previously received a rubber chip seal treatment, this slurry seal application is the second-step in the two-step process to resurface the street with a rubber cape seal treatment. The slurry seal herein this process is mainly used to fill minor undulations caused by the chip seal application, and to encapsulate the aggregate/chip material so that it doesn't dislodge. It will provide a smoother wearing course on the surface of the street.

If your street had not been previously rubber chip sealed, then the slurry seal application on your street is form of preventive maintenance that will protect the base of the roadway from water damage and weathering.

For more information about the slurry sealing process and impacts, please visit the City's website at: <https://www.ci.campbell.ca.us/DocumentCenter/View/5152/Slurry-Seal?bidId=>.

**WHERE:**

**SEE REVERSE SIDE FOR LOCATION & DATES** →

**WHEN:** Work will start on August 9, 2021. Working hours will be 8:30 AM to 4:30 PM Monday through Friday. It is estimated that this portion of the project will be completed by August 17, 2021.

#### WHAT TO EXPECT:

- Typical construction noise.
- Complete street closure. The street will be closed to all traffic while the slurry seal is being applied to the street and while it cures. This process can last anywhere from 4 to 5 hours (cure time is mainly weather dependent). Be mindful of the street closure and plan your time accordingly.
- Posted traffic control signs. For your safety and for the safety of the workers in the field, please obey all posted traffic control signs and construction workers.
- On street parking will be restricted during this construction operation. Posted restrictions will be enforced. Any vehicles parked within the construction zone will be towed away by the Campbell Police Department at the owner's expense.

#### ADVISORIES:

- Do put your garbage out on garbage day. O'Grady Paving has made arrangements with West Valley Collection and Recycling to do early morning pick-ups.
- Do not wash your cars or water your lawns the day before, the day work is scheduled, and the day after.
- Do not drive, walk, bike, play, skate, or allow pets on the newly sealed street until it has had time to cure.
- Do not perform any  $\frac{3}{4}$  - turns or make any sudden/hard stops with your vehicle for several days after the application of the material.
- Do drive slowly on the newly resurfaced street for several days.

#### CONTACT INFORMATION:

For additional information, please visit the City's website at: <https://www.ci.campbell.ca.us/1136/Annual-Street-Maintenance-Project-2021>. For all other questions, please contact O'Grady Paving at (650) 966-1926 or the City of Campbell Public Works Department at (408) 866-2150.
