

Summary of Comments Received During Public Hearings for the 2021-2022 City of Campbell
Redistricting Process

Comments from Public Hearing 1 held on September 7, 2021:

1. "I would just like to express my concern that I appear to live on a border of the current district map and would hope that the lines do not change too dramatically so that I am not robbed of the opportunity of voting for my representative in next year's election. In other words, I am currently in district 4 living on Rose Ct., and fear somehow being moved into district 1 or 2 which would mean that I would not be able to vote in the next election, after already not having had the opportunity to vote during the last one. My second comment based on the current map, is that I would suggest including more apartment units in my district (district 4)." – Campbell Resident
